SUBJECT: **LETTER OF INTENT FOR PROGRAMMER OF THE YEAR AWARD**

Dear Ma'am/Sir,

      I am writing to express my formal interest in the Programmer of the Year award for the 1st Semester A.Y. 2024 - 2025 graduating class. As a passionate and dedicated student in the Bachelor of Science in Information Technology major in Database System. I believe my accomplishments and commitment to programming make me a suitable candidate for this prestigious award.

      Last year, I participated in our annual programming contest during Foundation Day, where I demonstrated my skills and creativity in problem-solving. This experience not only deepened my love for programming but also showcased my ability to work under pressure and collaborate with peers to achieve our goals.

In addition to my contest participation, I am proud to serve as the backend developer for our capstone project, titled "A Web-Based Intellectual Property Data Management System." This project has allowed me to apply my knowledge of database systems and backend development in a practical context. My contributions to the project have not only enhanced my technical skills but have also emphasized the importance of teamwork and effective communication.

I believe my enthusiasm for programming, along with my active involvement in both competitive and collaborative projects make me a strong candidate for the Programmer of the Year award. I am committed to continuing my growth in this field and to representing our college with pride.

Thank you for considering my application. I am excited about the opportunity to be recognized for my efforts and contributions and look forward to learning more about the selection process.

Sincerely,

**Dangco, Omaimah B.**
Graduating Student, B.S. Information Technology (Database Systems)
College of Information and Computing Sciences
Mindanao State University
